High Tech Fabric Solutions

70 DENIER NYLON RIPSTOP

T.P.U

CODE	SZ/N1900 TPU	
CONSTRUCTION	100 % NYLON 70 X 70 DENIER RIPSTOP WEAVE	
WIDTH	142 CM (56")	
FINISH	4.9oz THERMO PLASTIC URETHANE COATED	
WEIGHT	210 G/SQM + or - 5%	
WATER VAPOUR & AIR PERMEABILITY	TPU Coated with Hydrostatic Value min 1500mm. No air porosity and No Moisture permeability.	
ROLL LENGTH	50 Mtrs	

SZ/N1900 TPU is constructed from TYPE 6 NYLON with a TPU back coating which provides the fabric with a high resistance to abrasion and excellent durability. This lightweight nylon rip-stop makes an excellent moisture barrier and has the added advantage of a Thermo Plastic coating giving it an even smooth surface. It has excellent welding properties.

SYNERGY QUALITY ASSURANCE 2017
